## What is Treasure Trove?

The **Treasure Trove Fund** is a donor-advised fund held at the Winona Community Foundation for the exclusive benefit of Cochrane-Fountain City Schools. The **Fund** supports educational enhancements or enrichments that are not funded through its normal funding sources. Examples include

- ◆ Classroom innovation grants
- ◆ Teacher and staff recognition
- ◆ Professional development and training
- ◆ Special speakers and performances and
- ◆ Equipment and supplies or capital improvements

Anyone can become part of the **Treasure Trove Giving Circle** by making a donation to the **Treasure Trove Fund**. Monies are given back to C-FC Schools to fund educational enhancements through a simple grant process administered by the **Treasure Trove Giving Circle's** Board of Directors. Dollars for approved grants are paid directly to the school by the **Treasure Trove Fund**.

During 2021, the **Treasure Trove Giving Circle's Board of Directors** granted over \$7,000 in grants to the Cochrane-Fountain City School District. One of those grants was for \$3,870 for a Small Engines Training Kit which contained 10 identical brand-new engines and parts, special tools and resource manuals to cover everything from engine theory and operation to troubleshooting. The kits will enable students to receive high quality, science-based and hands-on instruction which will, in turn, encourage them to explore high paying, high demand careers in the outdoor power equipment industry.
